

ENHANCED CONTROL. BROADER SPECTRUM. WIDER WINDOW.

With two modes of action, Acelepryn[®] Xtra insecticide offers even more insect control than the original Acelepryn. It's powered by two modes of action and active ingredients, *chlorantraniliprole* and *thiamethoxam*, which work together to deliver longer-lasting, broad-spectrum insect control on lawns, golf courses and sports turf including:

- Enhanced control, broader spectrum and a wider application window
- Season-long control of **grubs**, **billbugs** and **caterpillars** with just one application (see lawn guarantee below)
- **Broader spectrum** with added control of **ants** and **enhanced chinch bug control** (see St. Augustinegrass lawn guarantee below for at least three months of southern chinch bug control)
- **Wider application window** with early **curative grub** control through the second instar

The maximum annual rate of Acelepryn Xtra is 20 fl. oz./A.

Guaranteed Control for Lawn Care

Acelepryn Xtra provides **guaranteed** control of grubs, billbugs, caterpillars and southern chinch bugs.
