

# Anuew™ EZ

PLANT GROWTH REGULATOR

## SOLUTION FOR: WARM-SEASON TURFGRASS

### SUGGESTED RATES

#### BERMUDAGRASS GREENS

18–36 fl oz/A Anuew™ EZ

OR

4.5–22 fl oz/A Anuew™ EZ +

1–4 fl oz/A Primo Maxx®

Apply weekly.

#### BERMUDAGRASS FAIRWAY

26–54 fl oz/A Anuew™ EZ

Apply biweekly.

OR

13–26 fl oz/A Anuew™ EZ +

12 fl oz/A Cutless® MEC

Apply every 3 weeks.

#### ZOYSIAGRASS GREENS & FAIRWAY

13–26 fl oz/A Anuew™ EZ

### WONDERING WHEN TO REAPPLY?

Anuew EZ™ is the first EPA approved label with GDD model application.

[GREENKEEPERAPP.COM](http://GREENKEEPERAPP.COM)

TRACKING // ALERTS // GDD MODELS

\*Warm-season GDD model utilizes a base of 10° Celsius.

### BEST PRACTICES

- Use enough volume to wet turfgrass without significant runoff.
- Do not irrigate or water treated areas within four hours of application.
- Include a non-ionic surfactant for improved coverage and performance consistency.
- Include 1 lb ammonium sulfate per pint (16 fl oz) of Anuew EZ if water source is hard (> 140ppm calcium).

## FASTER SUPPRESSION IS ONLY THE BEGINNING

In warm-season species, Anuew™ EZ works differently than Primo Maxx® and many superintendents in the south are turning to a mix of Anuew EZ and Primo. Reasons include faster suppression, forgiving collar regulation, and improved appearance and playability – making both managers and members very happy.

### REGULATE BETTER WITH FASTER SUPPRESSION + GREENER COLOR

Anuew EZ enters the plant quicker and its softer chemistry results in less bronzing.

Peak suppression: Bermudagrass trials at NCSU, TN and GSSU. Bronzing Plots: Bermuda greens, NC, 2015

### BENTGRASS GREENS & BERMUDAGRASS SURROUNDS

Primo maxx at green application rates and intervals can spell trouble for collars

### SAY GOODBYE TO COLLAR DECLINE

PGR overspray on Bermudagrass collars and surrounds can overregulate the turf and create weak or bare areas. However, Anuew EZ is the perfect solution, providing strong growth regulation on creeping bentgrass greens while protecting Bermudagrass surrounds. Anuew EZ regulates Bermudagrass for a shorter interval.

### MASK UNSIGHTLY BERMUDAGRASS OFF-TYPES

Anuew EZ camouflages mutations resulting in better, more uniform field appearance.

**BEFORE**  
Primo Maxx®  
3 fl oz/A (Mondays) + 2 fl oz/A (Thursdays)

Champion Bermuda greens, Atlanta, GA

**AFTER**  
Anuew™ EZ + Primo Maxx®  
9 fl oz/A + 1 fl oz/A
