BIRD CHASE SUPER SONIC™ IB50

Introducing the Bird Chase Super Sonic™, an innovative outdoor sound device designed to effectively deter pest birds from large open spaces. This programmable system features audible bird distress calls and predator calls from over 24 species, broadcasting them for approximately two minutes every ten minutes to alert birds of danger. With a base unit covering 1 acre and the option to add additional speakers for up to 5 acres of coverage, it is ideal for preventive bird control and suitable for light to medium bird problems.

ADVANTAGES & BENEFITS

- Deter birds from large open spaces with bird distress and predator calls
- Cost-effective method to protect your property
- Features the distress and predator calls of 24 types of birds
