

BACKPACK MOTORISED MIST DUSTER

BM-100

Tank capacity	16 Litres
Engine	Air-cooled 2-stroke Gasoline engine
Displacement	40cc
Spray distance	20 Metres
Starting system	Standard recoil
Dimension	41.5 x 50.5 x 71 cm
Weight	10.6 kg
Application range	2600m ²

Backpack motorised mist duster

The BM 100 mist blower is ideal for plant and crop protection as well as pest control applications. Powered by specially designed air cooled 2 stroke 40 cc engine manufactured in Korea, this mist blower has a powerful fan achieving a spray distance of 20 metres. Suitable for misting liquid formulations as well as wettable powders, the BM 100 mist blower produces droplet sizes below 60 microns ideal for insect control and can spray up to an angle of 90° degrees. Thanks to its large 16 litre tank the BM 100 can cover an area of 1600 m² (outdoors) and 2600 m² (indoors). This light weight mist blower features include ergonomic back and padded shoulder straps, anti-vibration mounts, recoil start, and an electronic transistorized ignition module.
