

DEMYSTIFYING DISEASE CONTROL

Compendium™ fungicide combines the strength of two leading active ingredients, *azoxystrobin* and *propiconazole*, to control key turf diseases. Specifically designed to fit the agronomic and economic needs of lawn care companies, Compendium simplifies disease control and enhances profitability, all with the convenience of a single product.

Without the stress of specific disease identification or mixing with other products, lawn care operators can trust Compendium to control key turfgrass diseases, including:

- Brown patch
- Dollar spot
- Fairy ring
- Gray leaf spot
- Gray snow mold
- Large patch
- Leaf spots
- Microdochium patch
- Pink snow mold
- Spring dead spot
- Summer patch
- Rust

Preventive disease control with Compendium is an important part of promoting denser, greener, more beautiful lawns that are noticed by customers and their neighbors.

Features and Benefits

- Comprehensive control for cool- and warm-season turf
- Two modes of action provide strong control while protecting against the development of resistance
- Powerful, value-driven disease control for enhanced profit potential

Application Flexibility

With Compendium, there is no need to pre-mix to receive broad-spectrum control. There is one product to measure, one product to apply and fewer containers to triple rinse.

Compendium can be applied across all seasons for comprehensive lawn disease control.

Use rates: 0.65-2.6 fl. oz./1,000 ft.²

To learn how to integrate Compendium into a season-long agronomic program, visit GreenCastOnline.com/LawnPrograms.
