Durazyme
POWER FOR CALVES

Contains a source of live (viable) direct fed microorganisms

NEW LOOK!

Description:

Durazyme Powder for Calves is designed for use in all newborn beef and dairy calves and cattle to supplement the cow's colostrum or drug therapy. It contains a special formulation of lactic acid-producing bacteria, dried milk protein, lactase enzymes and dried egg solids to aid in fighting disease, minimize intestinal infections and enhance appetite and digestion. Durazyme Powder for Calves increases energy levels. Calves become more active and vigorous resulting in increased nursing action and higher colostrum intake.

Ingredients:

Dried egg product, Montmorillonite clay, Dried whey product, Ascorbic acid, Dried *Bacillus subtilis* fermentation product, Dried Enterococcus faecium fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Bifidobacterium thermophilum* fermentation product, Dried *Bifidobacterium longum* fermentation product, Dried *Aspergillus niger* fermentation extract, Fructooligosaccharides, Vanilla flavor.

Guaranteed Analysis:

Total lactic acid producing bacteria (*Bacillus subtilis, Enterococcus faecium, Lactobacillus acidophilus, Bifidobacterium thermophilum, Bifidobacterium longum*) (min) 1×10^7 CFU*/gm, *cfu=colony forming unit, Ascorbic acid (min) 30 mg/gm, Lactase (*Aspergillus niger*) 70 µg lactase hydrolyzed/min/gm, beta-Glucanase (*Aspergillus niger*) 60 µg beta glucans hydrolyzed/min/gm.

Benefits:

- For Beef & Dairy Calves & Cattle
- A natural biological product
- Non-medicated
- Administer during therapy with drugs
