FUNGICIDE ACTIVATOR SELECT™

ADJUVANT

GENERAL INFORMATION

Fungicide Activator SELECT is a high-quality adjuvant designed for use with systemic and contact fungicides to augment the performance of the active ingredients while extending disease control.

DIRECTIONS FOR USE

Mix Fungicide Activator SELECT at 0.125% v/v or 1 pint (16 fl. Oz.) per 100 gallons of solution.

Fungicide Activator SELECT is designed for use with fungicides registered for use on all golf courses, sports fields, residential and commercial lawns and other turf applications.

As with all spray applications, be certain the mix tank and spray equipment is clean and free from previous spray solution residues. Always follow the pesticide label instructions for mixing and use. Fungicide Activator SELECT will be the last thing added to the mix tank. After adding Fungicide Activator SELECT, agitate until the spray solution is thoroughly mixed. Continue agitation as necessary to maintain mixture and ensure an even application of active ingredients.

If no mixing instructions are available, add tank mix partners in the following order, maintaining agitation throughout:

- 1) Water to $\frac{3}{4}$ of target volume
- 2) Dry AMS, fertilizers and micronutrients
- 3) If foaming is anticipated, add antifoaming agent
- 4) Water soluble packets, dry flowables and water dispersible granular pesticide formulations. Thoroughly mix these and make sure all solid particles are dispersed before moving on to the next step.
- 5) Water soluble liquid pesticides such as most glyphosate formulations
- 6) Emulsifiable liquid pesticides such as emulsifiable concentrates
- 7) Adjuvants including Fungicide Activator SELECT, liquid AMS and liquid fertilizers and micronutrients
- 8) Continue agitation and fill tank to desired final level

USE RATES

Mix Fungicide Activator SELECT at 0.125% v/v or 1 pint (16 fl. Oz.) per 100 gallons of solution.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
