PACKAGING INFORMATION

12 X 1 qt.
4 x 1 gal.

Tee Time Select™ is a long term pigment solution that will provide a natural green color for extended periods. Color intensity can be adjusted by adding more or less Tee-Time Select to pesticide spray solutions. Use with pesticide spray solutions and apply with standard spray equipment to prevent skips and overlaps.

- Enhances green appearance of turf
- Long term pigment solution
- Natural green color
- Prevent unsightly misses during pesticide applications
- Prevent costly overlaps during pesticide applications

IMPORTANT:
ALWAYS READ AND FOLLOW
LABEL INSTRUCTIONS.

PRIME SOURCE

TEE TIME SELECT™

GREEN PIGMENT ADDITIVE

General Information:

Add to pesticide spray applications to enhance the green appearance of turf. Promotes uniform application of pesticide sprays by leaving a visual indication of spray patterns. Prevent missed spots where no pesticide control has been applied. Prevent costly overlaps where pesticide has already been applied. Tee-Time Select™ is a versatile, easy-to-use, non-toxic colorant for turf and ornamental, aquatic, industrial, municipal, utility, and rights-of-way applications of liquid pesticides and fertilizers. Tee-Time Select shows applicators where they have sprayed and will help avoid costly oversprays and skips.

Application Rates:

Shake well before using.

Use 20 ounces of Tee-Time Select per acre of turf being sprayed. Adjust as needed for desired color intensity.

*Tee-Time Select will color any surface with which it comes in contact. Cover all surfaces near the area being sprayed that must remain color-free.
