

SK100 Liquid Concentrate

Purpose

SureKill SK100 is a dual-synergized concentrated pyrethrin formulation designed for use as a space spray, fogging application, spot treatment, and crack or crevice application.

Description

SureKill SK100 provides flushing action and quick knockdown of flying and crawling insects with a dual-synergized 1.0% Pyrethrum formula. SureKill 100 can be used in all fogging machines, compressed air sprayers, aerosol generators and will not clog ULV fogging equipment.

Always read and follow entire label and SDS directions.
