*"As a mom, I need a product that gets rid of mice without bringing poisons into my home. Shake-Away does that, and it's organic!"*  
Patty Bajek, Pgh. PA

**Shake-Away Mouse Repellent Packs**  
Shake-Away Mouse Repellent Packs are a guaranteed, organic solution, for repelling mice from your property throughout the year. Place Shake-Away Mouse Repellent Packs in your kitchen, basement, garage, barn, shed, patio, deck, attic, boats and other recreational vehicles, or any area where mice may be a problem.

**Directions for Use**  
Shake-Away Mouse Repellent is contained in convenient plastic packs that can be easily placed where needed.

**Application:** Simply place the unopened Shake-Away Mouse Repellent Packs anywhere mouse activity is noted or expected, including feeding and nesting sites. Pay particular attention to areas that appear to offer entry to a structure or room. Often a single pack is enough to provide a mouse-free setting for an entire room. The more severe the mouse infestation, the more repellent packs that are necessary to successfully alleviate the problem. Large areas like basements often require 4 or more repellent packs at a time to keep them mouse-free. If at any time the repellent odor becomes too strong to the user, fewer packs should be used. Packs are still effective well beyond the time they have no detectable odor to humans, since mice have an acute sense of smell.

**First Aid**  
Shake-Away Mouse Repellent Packs can cause minor skin and eye irritations for certain individuals. In case of eye contact, flush with plenty of water. For skin irritations from exposure, wash area thoroughly with soap and water. Consult a health care professional if irritation persists.

**Caution:** When placing packs on non-durable surfaces like wood, fabric, or paint, test in an inconspicuous area first to determine if the product's vapors can discolor or damage the surface.

**Storage and Disposal:** Store and transport in the sealed pouch the product was purchased in. If the original package has been discarded, a sealable sandwich bag is adequate for storage. Store unused product in a place inaccessible to children and pets. Discard expired packs in the trash. Do not apply directly to water.

This product has not been registered by the USEPA. Shake-Away represents that this product qualifies for exemption from registration under FIFRA.
