Cockroaches Have Met Their Match

Starbar® Alluvium™ Cockroach Gel Bait controls cockroach pest species, including, but not limited to, German, American, Australian, Oriental, brown-banded, smoky brown and brown cockroaches.

Alluvium™ Gel Bait is for use as a crack-and-crevice treatment and into openings leading to voids for the indoor and outdoor control of cockroaches in animal housing facilities (such as, but not limited to, poultry houses, cattle, sheep, swine, goat and dairy facilities, horse stables, dog kennels, pet shops, and zoos).

Alluvium™ Cockroach Gel Bait can also be used in refillable bait stations.

APPLICATION INSTRUCTIONS

Light infestations	Heavy infestations and control of larger cockroaches
1-2 spots are recommended per one sq yd (9 sq ft) of treatment area.	2-4 spots are recommended per one sq yd (9 sq ft) of treatment area.
Each spot should equal 0.25 to 0.50 grams of product. Example: 1/8" in thickness and 2 inches in length	
BAIT STATION APPLICATION: Up to 5 grams of product per station.
