

TECH-REACH BAIT PRO

Instructions

Phone: 800-950-5866

Email: Info@technicide.com

TECHNICIDE™

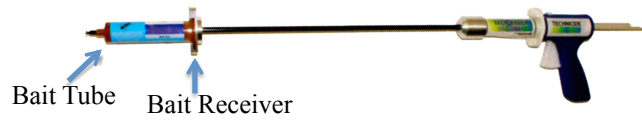

- 1) Press and hold the white release button and pull the plunger back.

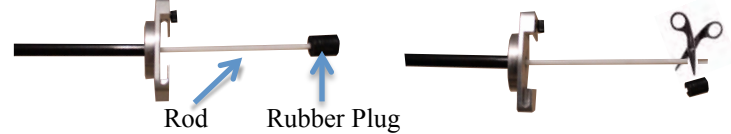

- 2) Place the plunger receiver over the plunger face and twist clockwise so the tube ears slide under the plunger's face tabs.

- 3) Place the bait tube or bait receiver and twist counter clockwise.

Tip: If the bait spills out when you attach the bait tube to the Tech-Reach Bait Pro, simply remove the rubber plug and cut the rod to adjust the rod to the length needed, then replace the plug.

- 4) Squeeze the trigger to expel bait.
